

# Ringtail® E-Discovery Software Hosted by H&A eDiscovery

---

The scale, speed and visual power of Ringtail 9 is now available in Canada hosted by H&A eDiscovery. Designed to power Canadian legal teams that have the people and expertise to manage e-discovery projects but want a better way to manage the software and infrastructure necessary to support their project requirements Ringtail hosted by H&A eDiscovery dramatically expands the reach and capability of your organization.

## H&A Discovery: Canada's Premier Ringtail Hosting Partner

As a **Premier Ringtail Hosting Partner**, H&A eDiscovery is dedicated to helping legal professionals strategically identify, capture, review and produce all forms of digital evidence. Offering a full suite of forensic and e-discovery services – from identification, preservation and collection to workflow consulting and project management – H&A staff are certified in both Ringtail Administration and Ringtail Analytics to help your team manage all facets of e-discovery quickly and cost effectively.

## The Power of Ringtail, The Convenience of the Cloud

With Ringtail hosted by H&A, e-discovery has never been faster or more accessible.

- Industry-leading software performance and speed provides unparalleled flexibility for handling both single and multi-matter project demands.
- Easy-to-use interface powers case management, review workflows, and import and export tasks.
- Advanced visual analytics enable better workflows and more responsive project management.

*Ringtail hosted by H&A provides users with:*

**Fast deployment:** Delivered to law firms and corporations via a Web browser, legal teams can begin using the software with no hardware to install.

**Easy administration:** Intuitive functionality for case creation, user management, group administration, review workflows and reporting.

**Seamless upgrades:** The optimized Ringtail H&A deployment model ensures that legal teams enjoy optimal performance. Upgrades are delivered as new software versions are released, ensuring that clients always have access to the latest version of Ringtail to increase overall review productivity.

**Data privacy:** All data center services and storage remains under H&A's control so clients can confidently safeguard client data and adhere to data privacy regulations.

**Reduced hardware spend:** Ringtail hosted by H&A eliminates the capital expenditures associated with procuring, installing and managing rapidly depreciating hardware. It also removes the hidden costs associated with troubleshooting server and storage issues. H&A e-Discovery provides elastic computing resources and manages services to help legal teams handle any-sized matter.

**Security:** To address the security and legal concerns of cloud computing, Ringtail is delivered to each client via a hosted, secure data center in Canada that is fully managed by H&A eDiscovery. And, each environment is logically separated to ensure that data is private and secure.

**No "hidden" storage caps:** Ringtail hosted by H&A was designed to scale with you, not against you. Purpose-built to handle the unexpected data volumes and complex cases which can challenge any legal team, Ringtail gives users the power, scalability and independence to manage your projects.

## E-Discovery Has Never Been Faster

Ringtail provides corporations and law firms with a single, powerful e-discovery software solution for matters large and small. With flexible workflows, massive scalability, intelligent reuse of data, visual document review and robust production, Ringtail provides impressive document review and case management capabilities to support a wide variety of projects, from internal investigations to large scale multi-party litigation. And with an easy-to-use interface, Ringtail delivers a standout user experience quickly.

Ringtail 9 combines the best of linear and visual review to enable rapid, high quality document review rates

## Self-Service Environment Optimized for Speed and Performance

Ringtail hosted by H&A eDiscovery delivers a true end-to-end solution for the entire legal team. H&A's Ringtail certified administrators create and control all case management, data transfer, import/export, review and productions. Our solutions provide corporate counsels and law firms with options based on their specific needs, infrastructure and resource requirements, capacity and volume of cases – always taking into account the need to maximize the return of their dollars. H&A ensures optimal hosting, tuning, optimization and performance of Ringtail – and provides elastic computing resources when needed. In addition to these basics, Ringtail hosted by H&A includes:

- Set-up of a secure cloud environment and training for Ringtail administrators.
- Complete self-administration of cases, end-user accounts and review functionality.
- Secure file transfer to easily upload and download data.
- The latest version of Ringtail and upgrades to all subsequent releases during time of subscription.
- 99.99 % network availability.
- Flexible storage options for your data in a secure cloud environment.
- An online customer self-service support portal.
- Live customer support during standard business hours.
- Ability to choose add-on services including ESI processing, machine language translation, monitoring and technical assistance.

## Predictable Pricing Via an Affordable Subscription Model

Ringtail hosted by H&A delivers budget certainty with transparent and predictable pricing. The fully-integrated solution results in increased productivity and reduces hidden e-discovery costs. Flexible pricing options are available to fit every budget and size. To learn more about our service plans and schedule a demo visit us at:
